  o Get a good team of volunteers available to progress the project.
  o Organise spraying
  o Organise traffic management for dates of scheduled working bees.
  o Organise ongoing working bees to maintain the project.
  o Ensure there is supervision of working bees, and that Transit requirements are being met.
  o Get involved in this volunteer project by taking an active interest, and to lead community volunteers by example.

12. Proposed Liquor Control Bylaw

12.1 That with regard to the proposed Liquor Control Bylaw, the Dannevirke Community Board makes the following submission:-

The Board supports the introduction of a bylaw to ban the consumption of liquor in public places within the Dannevirke Central Business District as proposed by the Dannevirke Police.

Other parts of the town may be identified in the future to extend the area of the prohibition if required, and taking into account the effectiveness of the bylaw at the above location.

The success of the bylaw is dependent on there being ongoing education and community support programmes in place to emphasise individuals responsibility.

This must be done as an early priority before the bylaw comes into force, and regularly thereafter in conjunction with the Police.

To avoid any confusion about the period when the bylaw is applied within designated areas, this should be specified as 24 hours per day, 7 days per week.
The Board supports the Akitio Ratepayers Association request for a partial liquor ban at Akitio Beach over the Christmas and New Year festive season.

For the purpose of clarifying the period of this ban, the Board proposes that this be specified to apply at all times from 12 noon on Christmas Eve to 7.00am on 3 January of the following year.
