

The following is an attachment to page 36 of Proposed District Plan Decisions Report No. 7 November 2009. It specifies an amendment to the Proposed District Plan resulting from the Council's decision on the submission of the Palmerston North City Council. This amendment was inadvertently left out of the Decisions Report when it was publicly notified on 06 November 2009.

- Amend the title of Standard 5.2.3.5 as follows:

***"Limited and Restricted Access Roads"***

- Add a new Standard 5.2.3.5(b), after existing Standard 5.3.3.5(a), as follows:

***"(b) Any subdivision which proposes to create an allotment or allotments requiring vehicular or pedestrian access to a restricted access road requires the written approval of the road controlling authority (or authorities if the road is a territorial authority boundary) for it to be considered as a controlled activity."***

***[Note: Where this Standard is not met, the proposed subdivision will be considered as a discretionary activity under Rule 5.2.4.4(b)]."***
