- print clearly.

Applicant details (Please print in CAPITALS)

Full name PATRICIA MOORE, TERRENCE MOORE, JOHN MOORE

Postal address [REDACTED]

Town [REDACTED] Postcode [REDACTED]

Business phone number 0 [REDACTED]

Mobile phone number [REDACTED]

Email [REDACTED]

I support OR oppose the application of: Energy Bay Limited
to (proposal of applicant) Build a Solar Farms at Mangamaire

The particulars of the application my submission deals with are:

162.6087 hectares on Dougherty's Road
Lots 1 2 DP67352 Sec 63A 65 66 BLK XIV
MANGAMAIRE SD

The reasons for my submission are:

Please see attached sheet.

(attach further sheets if necessary)

What decision do you wish Council to make?

Reject the application

Do you wish to be heard in support of your submission?

Yes

No

Signature:

P.M. Moore

Date: 28-5-2023

(to be signed for or on behalf of person making the submission)

If you wish to email your submission, please do so by emailing it to: info@tararua.govt.nz

Please note: All information provided becomes public information

I do not wish my contact details to be made public

NOTE: You are required to serve a copy of this submission to the applicant

We own 162.6087 hectares on Doughertys Road.

We believe that the building of the Solar Farm will devalue our land.

We had intended to build a house on the hill as it would have an awesome view of the Pastoral Landscape. If this Solar Farm goes ahead it will put paid to that idea. If we decided to sell the land no-one else would want to build on it either as they would be looking down on the ugly solar panels. It would be invasive and a blight upon the lovely landscape, therefore devaluing our land.

We agree with Mr Bray, in terms of the landscape effects, that the applicant considering that the solar panels will just look like large glasshouses is wrong. Where do you see so many glasshouses in one area?

As our property is on Doughertys Road we will most definitely be affected by the glint and glare/sunstrike from the site each evening.

With regard to noise levels from the inverters. Is the noise going to be constant or only during daylight hours? At night time the noise could be quite irritating and invasive e.g. If you are having a BBQ with friends, or relaxing at the end of the day enjoying the evening.

We note that Energy Bay Limited are proposing to plant Phormium Tenax (NZ Flax). These will become a breeding ground for rats and stoats. Ridiculous! Aren't we supposed to be trying to have New Zealand pest free by 2050?

We are also very concerned that this application for a Solar Farm is being kept quiet. Why are you not having a public meeting about it? Mangamaire is a built up area and after all it is their community.
