Kia ora

I am writing in response to your official information request dated 12 August 2026 regarding fluoride data.

The information you have requested is attached.

In the Tararua District, only the Dannevirke water supply is fluoridated. This started on 30 September 2024.

Ngā mihi

Kia ora

This email is to acknowledge receipt of your request for information, regarding fluoride data.

We will endeavour to respond to your request as soon as possible and in any event no later than 9 September 2026, being 20 working days after the day your request was received. If we are unable to respond to your request by then, we will notify you of an extension of that timeframe.

As part of our commitment to openness and accountability, we are now proactively publishing copies of requests for information and the responses provided to these requests, on our website. In doing so, we will ensure we comply with the provisions of the Privacy Act 2020 and redact any personal / identifying information from any response published.

If you have any questions about this, please don't hesitate to get in contact with me.

Kia ora Tararua District Council

**Background**

In 2022 you assisted us with a request (from [REDACTED] then of the University of Otago) for your community drinking water fluoride data.

In continuation of our research on fluoride in drinking water, we would like to make another request under the Local Government Official Information and Meetings Act 1987 (LGOIMA) as follows.

In July 2022, the Director-General of Health issued a directive for water supplies in your jurisdiction to begin fluoridating. Can you please:

1. Confirm the treatment plant(s) and water distribution zone(s) now being fluoridated **as a result of the directive** (using Taumata Arowai Treatment and Zone IDs e.g. TP00001, WDZ001WZ).
2. Confirm the date each water distribution zone started fluoridation in DD/MM/YYYY format.
3. Provide fluoride monitoring data in a table format (spreadsheet or CSV) including the Taumata Arowai supply component name, Treatment or Zone code, date of fluoride sample, fluoride value, unit of measure.

### **Data Storage and Use**

The data will be used in the investigation of the fluoride in drinking water.

- The data will be stored securely by the University of Canterbury.
- The data will only be accessed by researchers involved in the study from the University of Canterbury.
- A copy of the results of the study will be provided to drinking water suppliers.
- The data sources will be acknowledged in any papers published.
- The data provided on each water supply may be used for future epidemiological studies by the University of Canterbury.

Thank you once again for your help.

Kā mihi
