Kia ora

I refer to your official information request dated 29 April 2025 for information on mobility parking spaces.

Our response is outlined below.

1. *The total number of designated mobility (disability) parking spaces managed by your council on public land.*

Response: we have a total of 50 mobility parks in the Tararua District that the Tararua District Council manages. In addition there are 39 operation mobility spaces on private land that we are aware of. These are not managed by the Council.

2. *Private Land Data: Information on any disability parking spaces located on private land (e.g., shopping centres, hospitals) that your council has records of or oversight responsibilities for.*
3. *A list or summary of their locations, such as addresses, street names, or approximate locations.*

Response to (2) and (3): Please find attached a listing of operation mobility parking spaces within the Tararua District.

4. *Whether these spaces are generally aligned with current New Zealand Mobility Parking Standards (in terms of dimensions, signage, access aisles, etc).*

Response: the operation mobility parking spaces that were created during the Pahiatua Main Street upgrade undertaken in recent years were designed by an engineer and upon review for this information request, appear to be in line with the standard. The older operation mobility parking spaces appear to not be in line with the standard, however some of them can be brought into specification with signage, or making flat to the curb / footpath.

5. *Any policies, plans, or guidance documents your council uses when creating or maintaining mobility parking spaces.*

Response: The standard will be followed with all new operational mobility parking spaces created, and a programme will be discussed by the roading asset managers on a way forward with regard to bringing the existing parks up to specification.

Ngā mihi

Subject: Fwd: LGOIMA Request – Information on Mobility Parking Spaces

EXTERNAL EMAIL ALERT: Caution advised. This message is from an external sender. Verify the sender's identity and use caution with attachments and links.

Kia ora

I hope this message finds you well.

I am seeking information under the Local Government Official Information and Meetings Act 1987 (LGOIMA) to assist with research on accessibility and inclusion across New Zealand communities.

This request is purely for research and advocacy purposes and is **not intended to evaluate or critique council performance**.

Specifically, I would appreciate if you could provide:

1. The **total number** of designated mobility (disability) parking spaces managed by your council on public land.
2. **Private Land Data:** Information on any disability parking spaces located on private land (e.g., shopping centers, hospitals) that your council has records of or oversight responsibilities for.
3. A **list or summary of their locations**, such as addresses, street names, or approximate locations.
4. Whether these spaces are **generally aligned** with **current New Zealand Mobility Parking Standards** (in terms of dimensions, signage, access aisles, etc).

- If detailed compliance assessments or reports are available, I would be grateful if you could share them.
- If such assessments have **not** been undertaken recently, a brief description of the council's approach to mobility parking (e.g., design guidelines or standard practices) would be helpful.

5. Any **policies, plans, or guidance documents** your council uses when creating

or maintaining mobility parking spaces.

If any part of this request needs clarification or refinement to make it easier to respond to, please let me know.

Thank you very much for your assistance and for the important work you do supporting accessibility in your district.

Ngā mihi nui,
